

Solar PV & Storage Monthly Brief

Tired of unreliable PV market data? Gain the clarity and confidence you need to navigate the dynamic solar PV sector!

In a world flooded with free information, the true advantage lies in accessing accurate, consolidated, and actionable data.

Our monthly brief is a digest, reliable, comprehensive, and actionable resource with PV price trends, industry and market insights as well as an analysis of main sectoral news.

Special Offer: Enjoy 3 months of premium access to the European Solar PV Data Hub—your go-to source for the latest solar market intelligence!

Gaëtan Masson
CEO of Becquerel Institute

Save Time, Trust the Information

- ✓ Stay ahead of competition with up-to-date intelligence
- ✓ Understand the key solar sector trends at a glance
- ✓ Build your decisions on trustworthy information
- ✓ Save time & resources while we provide the latest analysis

- ✓ Ready-to-use graphs and figures
- ✓ Concise analysis of key sector events
- ✓ Direct access to up-to-date market & industry data
- ✓ Expert insights from our specialists

What Will You Get From The Report

**3-month premium
access to the
European Solar PV
Data Hub !**

Table of content

Solar PV Prices : What Happened & Why?

- Modules:
 1. Prices by technology
 2. Key factors driving prices
- PV systems:
 1. Inverters
 2. Mounting systems
- Battery energy storage systems (BESS)

Analysis of Main Sectorial News

- **Global** PV highlights: policy, market, techno, industry
- **European** PV highlights: policy, market, techno, industry
- **Key news at national level and industry level**
- **Insights on BESS deployment across the EU**

For Whom is this Report?

- C-level executives
- Market analysts
- Lobbyists and Policy makers
- Strategists
- Medias

What is Becquerel Institute?

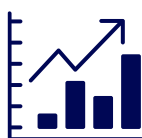

Becquerel Institute is a strategy consulting and research company specializing in solar photovoltaics and energy transition. We offer expert services blending technological, economic, and policy insights.
